

William Boström

Full Stack Developer

XPD AB

Summary

William is a goal-oriented full stack developer with experience in sales and e-commerce. Since 2022, he has combined his technical interests with hands-on experience. He started by building his own e-commerce solutions and has since deepened his knowledge through education at Chas Academy, along with multiple certifications in programming and IT.

Profile

William is curious and self-driven, which enables him to quickly adopt new technologies and strive to understand the bigger picture. He is social, collaborative, and thrives working both independently and in teams. During his internship at XPD, he took responsibility for a major development project, demonstrating both technical creativity and strong delivery capabilities. William is a dedicated developer with a natural drive and is appreciated for his ability to transform ideas into functional and well-structured code.
